

Join with us virtually,  
for the second year in a row.  
We'd rather see you all in person.  
Just making sure you know!

## How It Works:

### Register!

Grade 6-8 students [register](#) for Virtual CODEfest 2021 (with parental permission!)

### Experience!

Each Monday at 9am from July 5, 2021 to July 26, 2021 (4 weeks) registered students will receive introductions and information via email directing them towards various digital careers topics & related challenges for the week. Participants should follow along with the activity and complete any challenges or practices as directed.

### Submit!

Once completed, participants are asked to send screen shots or saved files of their work to [experience@iechamilton.ca](mailto:experience@iechamilton.ca). Each week the activity will be different. We will let you know what we are looking for!

### Win!

Every week is a new chance to submit completed tasks to win prizes!

- The **first 50 participants each week** to submit their completed tasks will win a **\$10 gift card**. (Yes, it is possible to earn this 4 weeks in a row!)
- Each week, **ALL completed submissions received by 12pm(noon) on Sunday** will entered to win the weekly **GRAND PRIZE—up to \$300 for an online coding &/or technology related activity, item, camp, course or subscription (subject to approval)** - NO CASH WILL BE GIVEN.
- Winners will be chosen randomly, and contacted directly to redeem prize.

If you have questions or concerns, please reach out to [experience@iechamilton.ca](mailto:experience@iechamilton.ca)

## Looking for extra help?

Hamilton Code Clubs is offering FREE live, virtual summer camps following the topics presented during CODEfest. Mentors will guide students through online activities, provide personal project help, and host Q & A periods with guest speakers who work in digital careers.

Camps will run 1:00pm-2:00pm, Monday to Friday.

Spaces are limited.

To register for Hamilton Code Clubs Summer Camps, please visit:
